

Case Logic Luminosity™ Collection

Lens Exchange Case

DSL-101

Switching lenses mid-shoot has never been easier. These cases not only protects an additional lens, but the open configuration creates a secure exchange pouch to store the removed lens while attaching the spare. Avoid juggling, balancing and exposing your precious gear to the elements with wire mouth construction that offers a third hand when replacing one lens with another.

Product Features:

1. Stores a standard zoom lens (e.g. 18-135mm)
2. Easy grab tab and velcro opening provide quick and simple access to your lens
3. Wire mouth construction provides lens exchange pouch for temporary storage while replacing one lens with another
4. Contoured shape and padded walls keep lens secure and protected
5. Removable shoulder strap adjusts for a custom fit
6. Adjustable loop attachment secures case to a belt or thicker strap of another bag
7. Tailored weather hood protects bag and gear from the elements (when not in use, store in dedicated compartment in back)
