

PHILIPS

Eco passport

Philips PerfectCare Aqua Steam generator iron

Iron any ironable garment from silk, to linen, to cotton, to cashmere in any order, without having to adjust. The Philips PerfectCare Aqua iron delivers fast results without risk of burn or shine for all your garments. Truly simple ironing. The ECO mode allows you to save energy by using a reduced amount of steam, still sufficient to iron all your garment. This product comes in packaging made with recycled materials.

Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

Energy

- Power: 2400Watt
- ECO-mode: yes
- Off-mode: <0.5 Watt
- Annual energy consumption: 74kWh/year*
