

wireless portable speaker

- Bluetooth®
- Built-in microphone for calls
- Rechargeable battery
- 10 W

BT3500B/00

Bring big tunes with you, everywhere

Quality, style and big sound merge in a body so slim it can be slipped in everywhere. Built-in NFC technologies make smartphone pairing as easy as a touch.

Benefits

Impressive sound

- Anti-clipping function for loud, distortion-free music
- Impressive with 10 W RMS
- Advanced audio performance with a slim design

Simplicity in use

- One-Touch with NFC-enabled smartphones for Bluetooth pairing
- Wireless music streaming via Bluetooth

- Built-in microphone for hands-free phone calls
- Audio-in for easy connection to almost any electronic device

Designed for grab and go

- Built-in rechargeable battery for music playback anywhere
- Use your own strap to carry it anywhere

PHILIPS

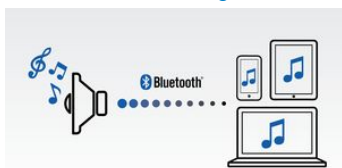

Features

NFC technology

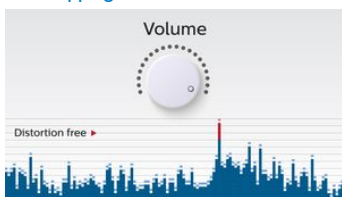

Pair Bluetooth devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC-enabled smartphone or tablet on the NFC area of a speaker to turn the speaker on, start Bluetooth pairing and begin streaming music.

Wireless music streaming

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favourite music and sound from videos or games wirelessly.

Anti-clipping function

Anti-Clipping lets you play music louder and keeps the quality high, even when the battery is low. It accepts input signals from 300 mV to 1000 mV and keeps your speakers safe from damage by distortion. This speaker handles anti-clipping through a dedicated audio limiter IC. This monitors the musical signal as it goes through the amplifier and keeps peaks within the amp's range, preventing the audio distortion caused by clipping without affecting loudness. A speaker's ability to reproduce musical peaks decreases along with battery power, but anti-clipping reduces peaks caused by low battery.

Built-in microphone

With its built-in microphone, this speaker also works as a speaker phone. When a call comes in, the music is put on pause and you can talk via the speaker. Call for a business meeting. Or, call your friend from a party. Either way, it works great.
