

LabelWorks LW-600P

Print labels directly from iOS and Android devices with this portable office label maker that can also be shared with multiple users.

Introduce your office to a new way of creating labels with the LW-600P – smallest and lightest 24mm desktop label printer on the market¹ – by printing from your computer, or directly from your iOS or Android device, connecting via Bluetooth² so multiple users can share it. With one nine-metre tape, fast print speeds and a high resolution, print quality labels quickly, almost anywhere.

Smartphone and tablet label maker

With its flexible connectivity options, you can either print from your computer, or download the free Epson iLabel app³ to create and print labels directly from your iOS or Android device. Thanks to its Bluetooth connectivity², you can connect remotely anywhere without the need for a network and share the label maker with multiple users.

Easy-to-use

This compact and portable label maker features a front-facing control panel to make operating the LW-600P so easy. Three operating buttons light up to tell you when it is switched on, if the battery level is low and whether or not your Bluetooth connection is active. And the Epson iLabel app³ is intuitive, so it's easy to create professional labels.

Fast, quality printing

Featuring 180dpi print quality, labels are crisp and clear. The LW-600P also offers print speeds of up to 15mm/sec.

Save money on labels

To get you started, the LW-600P comes with one nine-metre tape for black text on a white background. The large variety of tapes available (including Epson's new glow-in-the-dark, reflective and iron on tapes) mean you can always find the ideal tape for the job. The LW-600P prints on a range of widths up to 24mm.

Battery and mains powered

It comes with a handy AC adapter or can be used with six AA batteries, so you'll always have power when you need it.
