• Easy-to-use Apple/Android app for free
• Browser-based monitoring using any web browser

Secure and easy to set up
• Easy set-up of Wi-Fi-enabled monitor via QR code
• Watch up to 16 monitors with one app on smartphone/tablet

• Magnetic base for easy adjustment of viewing direction
• Extra wall mount for the best possible placement
• Encrypted direct networking for secure connection

Alerts via push notifications
• Built-in noise and motion detection
• Phone alerts when monitor detects noise/motion

PHILIPS

Features

Wi-Fi enabled

The In.Sight wireless monitor is a Wi-Fi enabled monitor. It uses your home wireless network to stream live video and audio to your smartphone/tablet. A home monitor that you can set up anywhere you like.

Instant monitoring

Free Apple/Android app

Browser-based monitoring

The InSight wireless home monitor also allows you to find out what's going on at home in real time from your favourite web browser, be it Chrome, Internet Explorer, Safari or Firefox, on a PC or Mac.

Easy set-up via QR code

Set-up is simple with the app. The app will generate a QR code for your home Wi-Fi settings. With the QR code, the monitor will automatically pair with your Wi-Fi network, easily and instantly.

Watch up to 16 monitors

Direction adjustable

The Philips InSight wireless home monitor has a magnetic base that holds the monitor, allowing you to rotate and adjust your monitor to any angle.

Extra wall mount

In.Sight wireless home monitor comes with a wall mounting bracket. Use it to easily mount your monitor to any wall or ceiling. The base itself pivots and turns, so you can still reposition the In.Sight wireless home monitor when it is mounted.

Encrypted direct networking

Philips In.Sight wireless home monitor uses highly secure encryption to provide you with privacy at all times. In.Sight wireless home monitor uses a unique encryption key each time it makes a connection.

Noise and motion detection

It's impossible to predict when something might happen. The InSight wireless home monitor keeps watch with adjustable noise and motion detection. You will be alerted any time noise or motion is detected.

Alert notifications
