- Saving energy with ECO mode
- Lock your iron securely to the base station

Carefree ironing, no temperature setting required

- Iron from jeans to silk with no temperature setting required
- Safe to leave the hot soleplate on the ironing board

PHILIPS

Steam generator iron
5 bar 290 g steam boost, Carry lock, 2.5 L fixed watertank

GC8642/20

Highlights

Steam ready in 2 minutes

Steam is ready to use in 2min and can be refilled at anytime during ironing.

Refill tap water any time

Your steam generator iron is designed to use tap water. While ironing, when you run out of water in the watertank, you can refill it easily without waiting or turning your appliance off.

Safe rest

The Philips innovative OptimalTEMP technology guarantees no burn on all ironable fabrics. During ironing, no need to put your iron back to the base station, just leave the hot iron soleplate directly on the garments or cotton ironing board cover without additional resting accessory. It will not damage any of your ironable garments, neither the board.

This makes your ironing easier with less wrist efforts.

Energy saving

By using the ECO mode, with reduced amount of steam, you can save energy without compromising on the ironing results.

Automatic shut-off

The auto off function automatically switches off the appliance if it has not been used for a few minutes, also saving energy.

T-ionicGlide soleplate

Our best gliding and most scratch resistant, 5star rated soleplate with integrated Titanium-Oxide layer

Safety carry lock

Your steam generator iron comes with a safety carry lock. You can lock your iron safely on the base, making it safer, reducing the risk of people touching the hot soleplate. You can also carry the steam generator easily.

OptimalTEMP technology

Now you can iron from jeans to silk with no temperature setting required. Guaranteed no burn on all ironable fabrics. Revolutionary technology with the 1) Advanced Smart Control Processor which controls precisely the soleplate temperature. You do not need to adjust temperature 2) Powerful Cyclonic steam chamber which delivers powerful consistent steam, making ironing easier and faster.

Specifications

Calc management

- Calc clean reminder
- Suitable for tap water
- Calc clean solution: Easy De-calc

Technical specifications

- Voltage: 220- 240 V
