

Daisy Chain Cable for NetDirector KVM Switch B020-Series and KVM B022-Series, 15 ft. (4.57 m)

MODEL NUMBER: P772-015

Description

This daisy-chain cable is designed to connect a B020 / B022 NetDirector® KVM switch to another NetDirector KVM switch, allowing for the expansion of the number of computers/servers that can be controlled from a single keyboard, mouse and monitor. This premium cable features a PVC jacket and double shielding (foil and braid) for maximum EMI/RFI protection. The cable's DB25 connectors are molded with integral strain relief and easy-grip textured overmold.

Features

- Links a B020 / B022 NetDirector KVM switch to another NetDirector KVM switch, allowing for the expansion of the number of computers/servers that can be controlled from a single keyboard, mouse and monitor
- Length: 15-ft. (4.57 m)
- Connectors: DB25 Male to DB25 Female
- Features a PVC jacket and double shielding (foil and braid) for maximum EMI/RFI protection
- Molded connectors with integral strain relief and easy-grip textured overmold
