## Enjoy a beautiful garden with light

Enjoy starry nights with this Philips myGarden Starry wall light. This elegant black energy-saving light in light grey delivers a pool of warm white light and is made of high-quality synthetics.

### Benefits

Designed for your garden

- IP44 - weatherproof

Sustainable light solutions

- Warm white light

- Philips bulb always included

- Energy saving

**PHILIPS**

## Features

### Warm white light

Light can have different colour temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

### Philips bulb always included

High-quality Philips EcoLamp energy-efficient light bulbs are included in the box for achieving the best light effect.

### Energy saving

This Philips energy-saving lamp conserves energy compared with traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

### IP44 - weatherproof

This Philips outdoor light is especially designed for humid outdoor environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This outdoor light is designed with IP44: it is protected against splashing water. This product is most commonly used and ideal for general outdoor use.
