# Always close to your baby

Watch from anywhere on your smartphone/tablet

The Philips In.Sight wireless HD baby monitor lets you watch and listen to your baby from your smartphone/tablet. Watch in crystal clear HD quality, and with night vision you can even watch your baby in the dark.

## Benefits

### Stay close to your baby wherever you are

- Wi-Fi baby monitor for placement anywhere in your home
- Night vision mode to see baby clearly in the dark
- Unlimited live viewing via Wi-Fi/3G/4G LTE

### Stay reassured with alerts and notifications

- Hear your baby continuously even when phone is locked
- Instant talk to your baby via smartphones
- Share monitors with other smartphone users
- Phone alerts when monitor detects noise/motion

- Real-time monitoring with temperature and humidity sensor

### Easy, safe and secure

- Easy set-up of Wi-Fi baby monitor via QR code
- Video encrypted for secure connection
- PVC-BFR-free power cables and monitor
- Powered by Ivideon, a leading firm in video cloud solutions

## Features

### Wi-Fi-enabled baby monitor

Have ultimate peace of mind with the In.Sight wireless baby monitor. It connects to Wi-Fi 802.11 bgn networks. Place the monitor in your baby's

# PHILIPS

room and you can watch and hear your baby directly from your smartphones wherever you are.

### Continuous audio streaming

The In.Sight wireless HD baby monitor streams audio continuously, even when your smartphone is locked or when you are docking or charging your smartphone.

### Easy set-up via QR code

Set-up is simple with the app. The app will generate a QR code for your home Wi-Fi settings. With the QR code, the monitor will automatically pair with your Wi-Fi network, easily and instantly.

### Encrypted direct networking

The In.Sight wireless monitor uses highly secure encryption to provide you with privacy at all times. The In.Sight wireless monitor uses a unique encryption key each time it makes a connection, providing you with a highly secure connection each time you look at your loved ones.

### Night vision mode

Night vision mode allows you to see your baby's lovely face in the dark. Infrared light goes on for the monitor to capture clear black-and-white video when it is dark. Night vision mode switches on and off automatically, or you can adjust it manually.

## Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

### Lens and Sensor

Sensor	720p HD video image sensor

Exposure	Automatic exposure control

### Features

Wi-Fi	802.11 b/ g/ n (2.4 GHz)
Motion detection	Yes
Noise detection	Yes
Direction adjustable base	Yes
Night Vision	Yes
LED indicator	Yes

### PVC and BFR-free

The In.Sight wireless HD baby monitor is free from brominated flame retardant (BFR) and polyvinyl chloride (PVC). It adheres to the stringent safety standards for infant utensils and is absolutely baby-proof, safe and eco-friendly.

### Instant talk via smartphones

With the In.Sight wireless HD baby monitor, you can talk to your baby any time you want. Simply press "talk" on your smartphone and sing her a nursery rhyme. Watch as she falls asleep to your soothing voice.

### Multi-user mode

Share monitors with your spouse, family, friends and even babysitters. The app lets you share each monitor with two other users so that they have access to live videos and sound via their smartphones as well. You can even upgrade the app to share the monitor with up to 16 users.

### Noise and motion alerts

It's impossible to predict when something might happen to your baby. The In.Sight wireless HD baby monitor keeps watching with adjustable noise and motion detection. You will be alerted any time noise or motion is detected. Automatically receive push notifications on your smartphones when the monitor detects motion or noise.

### Temperature and humidity sensor

Temperature and humidity sensors on the In.Sight wireless HD baby monitor show temperature and humidity levels on your smartphones. The humidity sensor measures the humidity level, detecting dry air that may irritate baby's throat, for instance. The app will even alert you when the temperature is too high/low.

Temperature measurement	-10 – 50°C
Humidity measurement	20 – 90%
