Sustainable light solutions

- High quality LED light
- Philips offers 5 year warranty on the LED module and driver
- Energy saving
- Warm white light
- Longue durée de vie jusqu'à 15 ans

PHILIPS

Points forts

High quality LED light

The LED technology, integrated into this Philips lamp, is a uniquely developed solution by Philips. While instantly turned on, it enables an optimal light output and brings out vivid colors in your home.

5 year warranty on LED system

On top of the standard 2 year warranty for this lamp, Philips offers 5 year warranty on the LED system, meaning the LED module and the driver in this lamp.

Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

Energy saving

This Philips energy saving lamp conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

Longue durée de vie

Éclairez en toute confiance. Les LED intégrées, qui sont utilisées dans cette lampe LED Philips, ont une durée de vie pouvant atteindre 15 000 heures (ce qui équivaut à 15 ans à raison d'une utilisation moyenne de 3 heures par jour, avec au moins 13 000 cycles de marche/arrêt). Vous n'aurez donc pas à vous soucier de l'entretien ni du remplacement de l'ampoule et bénéficierez d'une ambiance d'éclairage exceptionnelle chez vous.

Create a stylish atmosphere

This light is designed around the latest tastes, trends and lifestyles to blend effortlessly into your décor and define the localised ambiance you have always desired.

Perfect to relax and socialise

The living room is the heart of any home - a place where families gather to relax and guests socialise. Lighting for your living- and bedroom has to be flexible and easy to adjust to its different uses throughout the day. Careful placement of different light sources and playing with light layering helps create the feeling of space and to give the room a warm and welcoming feel.

Caractéristiques

Design and finishing
