Highlights

Energy efficiency class A

This vacuum cleaner is engineered to achieve full performance with an energy efficiency class A.

A-class on hard floors

This product achieves the highest cleaning performance class on hard floors. 100% of dust is picked up!

PowerCyclone 7

The aerodynamic design of PowerCyclone 7 minimizes air resistance and ensures exceptional cleaning performance through 3 highly efficient steps: 1) Air enters fast into the PowerCyclone thanks to the straight and smooth air inlet. 2) The curved airpass quickly accelerates the air upwards in the cyclonic chamber. 3) At the top of the cyclone, the exit blades effectively cut out the dust from the air.

TriActiveMax nozzle

TriActiveMax nozzle perfectly seals to the floor and performs 3 actions in one go to thoroughly clean your floors: 1) A specially designed sole plate gently opens the carpet and removes the dust from deep down. 2) Larger front opening picks up bigger particles. 3) Side brushes ensure perfect cleaning along the plinths.

SuperTurbo Brush

Super TurboBrush perfectly removes pet hair from carpets.

Long reach tool

The Long reach tool is a clever accessory which helps you clean difficult areas like the top of the furniture or high shelves. The angle of the brush is adjustable, so you can have the exact instrument for your needs.
