Revitalising Massage

Intelligent Head

SC6060/00

Radiant and revitalised skin

Stimulates blood flow and relaxes the muscles

The Revitalising Massage attachment is developed with experts in Japanese massage. The customised DualMotion programme increases the blood circulation and relaxes the facial muscles, for revitalised, radiant skin with a healthy-looking glow. (Only compatible with VisaPure Advanced handles.)

Improves blood circulation for radiant skin

- More oxygen and nutrients are available in the skin

Relaxes the muscles for a revitalising experience

- Reaches the deeper layers of the skin to relax the muscles

Customised programme of DualMotion technology

- Feels like 750 fingertips tapping your skin per minute

Easy to use, easily fits in with your skincare routine

- Can be used with and without creams, lotions and oils
- The Head is easy to clean with warm water and soap
- Use 1–3 times a week for a revitalising experience

Intelligent Head Recognition, tailored DualMotion

- 3-minute programme, 2 intensity settings, two-way rotation

Highlights

Improves blood circulation

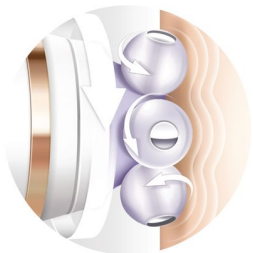

Using the Revitalising Massage head with its customised DualMotion programme, you will increase your blood circulation, which will give you radiant skin with a healthy looking glow. Experience a pleasant, revitalising sensation on your skin.

Relaxes the muscles

The Revitalising Massage head provides a deep level massage that reaches the deeper layers of the skin, relaxing the small facial muscles and giving you a relaxing, comfortable experience.

750 finger taps per minute

The customised DualMotion programme delivers a revitalising and relaxing experience. It has been developed with experts in Japanese massage and is designed to mimic

the renowned massage techniques Petrissage and Tapotement. It does what your hands cannot do. The rhythmic movements of the five small balls on the Head feel like 750 fingertips tapping your skin per minute, massaging your skin. The Revitalising Massage programme lasts 3 minutes so you can enjoy a facial massage several times a week.

Easy in your skincare routine

Easy to integrate in your skincare routine. The Head can be used with your current skincare products and brands like creams, serums, oils and essences. You can also use it without any cream if you'd prefer.

Easy to clean

The Head is easy to clean. Simply wash it in the sink with warm water and soap.

3-Minute Massage programme

Thanks to the Intelligent Head Recognition of the VisaPure Advanced range, the device recognises the Head once it is put on, and automatically triggers a customised programme of DualMotion, with dedicated levels of rotation, vibration, duration of the programme and direction of rotation. The Revitalising Massage programme uses two-way rotation to be able to follow the lymphatic flow in the skin.

Can be used 1–3 times a week

Use the Revitalising Massage Head 1 to 3 times a week for a relaxing and revitalising experience.
