## Features

### Long lasting smoothness

Philips Lumea applies gentle pulses of light to the hair root. As a consequence the hair sheds naturally and hair regrowth is inhibited. Repeating this treatment regularly will keep your skin smooth every day.

### Effortlessly effective

Our clinical studies have shown significant hair reduction in as little as four bi-weekly treatments resulting in smooth hair free skin. To maintain these results, simply repeat the treatment when needed. Time between treatments may vary based on your individual hair regrowth.

### IPL technology

Philips Lumea uses an innovative light-based technology called IPL (Intense Pulsed Light), derived from the technology used in professional beauty salons. Philips has adapted this technology for safe and effective use in the comfort of your own home. Philips worked closely with leading dermatologists to develop our breakthrough hair removal system. For more than 10 years we carried out extensive consumer research with more than 2000 women.

⊙ This product is suitable for you to use. ⊙ This product is neither suitable nor safe for your skin and hair type.

Philips Lumea works effectively on (naturally) dark blonde, brown and black hairs. As with other light-based treatments, Philips Lumea is NOT effective on red, light-blond or white/grey hair. Philips Lumea is also NOT suitable for very dark skin.

### Application areas

Use with confidence to remove hair on face (upper lip, chin and sideburns) and body parts including legs, underarm, bikini area, belly and arms.

### Fast treatment on legs

Bigger body attachment for fast treatment on large areas like legs.

### Extra safety for the face

The facial attachment has its own specially designed integrated light filter for safe and convenient use on the upper lip, chin and sideburns. It can also be used on other sensitive areas on the body, eg underarms and other hard-to-reach areas.

### Bikini area attachment

Bikini area attachment for effective treatment of bikini hair. Hair in this area tends to be typically stronger and thicker than leg hair.

### Five light energy settings

Philips Lumea has five adjustable light energy settings to ensure gentle but effective treatment. Used correctly, Philips Lumea's IPL treatment is safe and gentle to use even on sensitive skin and sensitive body areas.

### Cordless convenience

Lumea's unique cordless design is perfect for treating the areas you want, when you want.
