

Mini Hi-Fi System

- 650W
- Bluetooth

NTRX500/37

The ultimate sound machines

Obsessed with sound

Be blown away by bass on this NX bass equipped 650W system that's ideal for any party. Let Auto DJ mix tracks on your USB device, stream tunes from any smartphone over Bluetooth® and use 260K lighting effects to get the party thumping.

Benefits

Designed to party

- 260K LED lights for great party atmosphere
- DJ Crossfader for mixing your tracks
- Auto-DJ for automatic mixing of tracks on USB drive
- Handles and wheels for easy transportation

Engineered for powerful sound

- 650W RMS total output power / 8800W PMPO
- NX bass button for instant sound boost & light effects

- 5-band equalizer provides a personal music experience

Enjoy your music from multiple sources

- Enjoy MP3 music directly from your portable USB devices
- Rip music from CDs, radio and karaoke onto USB device
- Stream music via Bluetooth®

PHILIPS

Features

260K LED lights

Add the ultimate atmosphere, ambiance and passion to any party, with thousands of colored lights that flicker, flash and flow in time with your music. Easily choose light colors to match your theme, or just pick one of the systems many presets. Flick the NX bass button to make the light show even more intense.

DJ Crossfader for mixing

Be the master of every party! DJ cross fader lets you mix your favorite tracks between channel A and B, so you can flow seamlessly between songs. Just select the device output for deck A (USB, Bluetooth®, CD, Audio in or tuner) to start the music, then choose the input device for deck B (USB or audio in). To change tracks, swipe the fader from one side to another for a smooth transition that keeps the party pumping.

NX bass button

Available throughout the range, NX bass temporarily boosts bass and loudness to the extreme. Hit the NX bass button to instantly juice up your sound, make lighting effects go wild, and feel the immense bass of the subwoofers thundering through your bones.

Auto-DJ for automatic mixing

You can automate your tunes with Auto-DJ, which automatically mixes tracks on a connected USB drive. Add sound effects with the DJ jogwheel. Rock the house continuously!

Handles and wheels

Bring massive sound wherever you need it, upstairs, downstairs, indoors or out. NITRO audio solutions slip smoothly into any home thanks to their optimized footprints and clutter free, convenient controls integration. Link them up with your TV or PC to supersize your experience and make music and movies sound bigger than ever. Or move them outside using built-in handles and wheels to turn them into the ultimate outdoor party sound system.

Stream music via Bluetooth®

If you've got a big music collection stored away on a smartphone, tablet or computer, stream it to a NITRO system using digital Bluetooth® wireless music streaming and make it sound incredible. Powerful sound is rarely this easy or this convenient.
