

HP OfficeJet Pro 6230 ePrinter

Enjoy professional colour documents and eye-catching marketing materials – for up to 50% less cost per page than lasers.¹ This ePrinter is designed for productivity and mobile printing to keep business moving – at work, home or on the go.²

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>
