

CIPDCAM7200D

Wireless Pan/Tilt Dome Cloud IP Camera, Outdoor

This megapixel outdoor wireless network Dome camera is ideal for remote monitoring of either a home or business premises. With an outdoor weather rating of IP53 (under the eaves) and a viewing angle of 76 degrees, the camera offers a versatile, high performance surveillance option for vulnerable business areas such as warehouses, driveways, entrances and side access, as well as residential areas such as the driveway approach, front of the house and garages or other outbuildings. By connecting the IP camera to a wireless router, the user can access live images via the cloud from any PC, notebook or mobile device. Infrared LEDs enable premium monitoring in dark conditions, up to a range of 20 metres. A high operating temperature range allows the device to be used in almost any climate.

Highlights

- > Monitor your home or office from anywhere in the world
- > 1/4" Progressive CMOS, 1280*720 HD
- > Weatherproof IP53-rated
- > 8GB MicroSD card built in
- > Built-in Infrared LEDs for night viewing
- > Supports 350° pan and 90° tilt
- > Supports motion detection and event notification via e-mail or FTP
- > Wireless security with WEP, WPA and WPA2 encryption
- > Supports iPhone/smartphone/PDA remote viewing over the Internet
- > Free 64-channel monitoring software included
- > Supports cloud functionality
- > QR code for fast cloud-based setup
