PHILIPS

Bulb
1.7 W (15 W) E14, Warm white, Non-dimmable

Highlights

Warm white light (2700 K)

Light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, cosier light, while those with a higher Kelvin value produce a cool, more energising light.

Very low energy consumption

By replacing traditional light bulbs with a Philips LED alternative, you will gain immediate, significant energy savings while contributing to a sustainable planet.

Lasts up to 15 years

With a lifetime of up to 15,000 hours, this Philips LED bulb will ensure your desired atmosphere for up to 15 years.*

Instant light when switched on

No need to wait: Philips LED light bulbs provide their full level of brightness immediately upon switching on.

Refrigerators and cooker hoods

The T25 LED application bulb was especially designed to replace your current halogen or incandescent application bulbs. It can be used in refrigerators or cooker hoods with a small fitting.

Not suitable for ovens

This LED application bulb cannot be used in ovens, as it is not designed for heat resistance. Look for application bulbs in the Philips halogen bulbs range if you are looking for an oven bulb.
