

Capsule

- 1.2W (10W)
- G4
- White
- Non-dimmable

8718696422304

A familiar beam meets an innovative design

Avoid the hassle of changing capsules

When you switch to a Philips LED Capsule, you immediately use up to 90% less energy without sacrificing light output and quality.

Benefits

Choose for the high-quality light

- Cool, energising light
- Learn about light

Choose a simple replacement for your old bulbs

- Shape and size similar to halogen capsules
- Instant light when switched on

- No UV or InfraRed

Choose for a sustainable solution

- Long-life bulbs – Last up to 15 years
- Better for your wallet and your planet

PHILIPS

LED

Features

Cool, energising light

This bulb has a colour temperature of 3,000 K, providing you with a cool, energising light, perfect for creating an inviting ambience to host friends or to wind down with a book.

Replaces halogen capsules

With its beautifully shaped design and familiar dimensions, this is a contemporary lighting LED capsule. The perfect sustainable replacement for traditional halogen capsules.

Instant On

No need to wait: Philips LED light bulbs provide their full level of brightness immediately, as soon as they are switched on. Just by turning the switch, your room is at full brightness. There is no slow starting or waiting.

15,000-hour rated average life

With a lifetime of up to 15,000 hours, you can reduce the hassle of frequently replacing your light bulbs, and enjoy a perfect lighting solution for over 15 years.

Saves up to 80% energy

LED technology saves up to 80% energy compared to your standard bulb. It therefore pays for itself and saves you money year after year. It also helps to protect the environment.

No UV or IR

The light has no infra-red component, so no heat is radiated. Also, there is no ultra-violet component in this light. These two characteristics mean that this light will not cause fabric and other items to fade.

Learn about light

Colour temperature: light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, more tranquil light, while those with a higher Kelvin value produce a cool, more energising light. CRI: the colour rendering index (CRI) is used to describe the effect of a light source on colour appearance. Natural sunlight has a CRI of 100. The CRI of Philips LED light bulbs is always higher than 80, which ensures that colours are shown as true and natural.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Bulb characteristics

Shape	Capsule
Cap/fitting	G4
Dimmable	No
Voltage	12 V
Wattage	1.2 W
Wattage equivalent	10 W

Power consumption

Energy efficiency label	A++
Power consumption per 1000h	2 kW h

Light characteristics

Light output	105 lumen
Colour temperature	3000 K
Light effect/finish	Warm White
Colour rendering index (CRI)	80
Starting time	<0.5 s
Warm-up time to 60% light	Instant full light

LED

Durability

Lifetime of lamp	15000 hour(s)
Number of switch cycles	50000
Lumen maintenance factor	0.7
Average life (at 2.7 hrs/day)	15 year(s)

Bulb dimensions

Height	39.2 mm
Width	14.3 mm

Other characteristics

Mercury content	0 mg
Power factor	>0.5
Lamp current	200 mA
Lamp Classification	RG0
Risk Group	

Rated values

Rated power	1.2 W
Rated lifetime	15000 hour(s)

* **Based on average usage of 3 hours per day

***This bulb complies with EMC requirements when used in combination with a high-quality electronic transformer, such as the Philips CERTALINE 60 transformer. Performance may vary based on the transformer used to operate the bulb.
