- (2) Spacer, Nylon, 1/2" x .218 x 1/4"
- (2) Washer, #4
- (2) Washer, M4

\*\*Only used when installing SLB/SSB interface brackets.

### Installation Instructions

**WARNING: OVER TIGHTENING OF SCREWS CAN DAMAGE PARTS AND CAN LEAD TO SERIOUS PERSONAL INJURY AND DAMAGE TO EQUIPMENT! DO NOT over tighten screws when installing interface brackets.**

**NOTE:** Step 1 is only required when installing an SLB/SSB interface bracket. If an SLM/SSM bracket is being installed, proceed to step 2.

1. Screw thumb screws onto 10-24 x 5/8" Phillips pan head screws. DO NOT fully tighten thumb screws at this time.
2. Turn projector upside down on a flat surface.
3. Place 1/4" nylon spacers over the threaded inserts in the front bottom of the projector.
4. Place the interface bracket onto the nylon spacers on the bottom of the projector. Align the mounting holes in the front of the bracket with the nylon spacers and the mounting holes in the rear of the bracket.
5. Position M4 mounting screws with M4 washers through the 1/4" nylon spacers and into the threaded inserts in front bottom of projector. Position M3 mounting screws with #4 washers into the threaded inserts in the rear mounting holes. Tighten all fasteners at this time, securing the bracket to the projector.

**NOTE:** Security screws can be substituted when mounting interface bracket to projector by using the parts and installation instructions in the All-Points Security Kit.
