DS6100/12

Sound that fits your home

Obsessed with sound

Bring out the best in your music. The Philips DS6100/12 delivers the clear, balanced sound of Neodymium speakers - from any iPod/iPhone, or from iMac/PC. Synchronise your iPod/iPhone with your iMac/PC.

Benefits

Crystal clear sound
• Digital Sound Processing for lifelike sound without distortion
• DBB to preserve low tones for deep bass at any volume level
• 20 W RMS total output power

Exquisite design and finishing
• Aluminium metal grill
• Designed to fit with iMac and PC

Advanced intuitive control
• Free DockStudio app for Internet radio and other cool features
• Dock any iPod/iPhone, even in its case
• PC synchronisation with your iPod/iPhone
• AUX-in for easy connection to almost any electronic device

PHILIPS

Features

Digital Sound Processing

Advanced sound processing technology enhances the reproduction of your music so that each note resonates with crystal-clear accuracy, and each pause is sealed with pristine silence. Philips' proprietary Digital Sound Processing technology optimises the performance of compact speaker boxes, delivering sound that is clear, detailed and powerful without any distortion.

Dynamic Bass Boost (DBB)

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Aluminium metal grill

Premium build quality design. The speaker's front is made from a single piece of anodised brushed aluminium – the same material used to build aircraft. The aluminium, curved to create an ideal acoustic chamber, optimises audio delivery for sound that is accurate, powerful, natural and crystal clear.

DockStudio app on App Store

The free app adds an array of exclusive cool features to your docking speaker. You can check the weather, tell the time and even use your favourite images as wallpaper. DockStudio also lets you listen to thousands of Internet radio stations worldwide. More updates on skin styles and new functions on the way.

Aluminium metal grill
