

Dell Cast

For Dell Venue Tablets

Dell offers unrivaled productivity and entertainment with the Dell Cast designed for Dell Venue tablets.

One of a kind Android productivity

Dell is the only provider to give Android users a desktop like experience. With Dell Cast adaptor turn your android tablet into a productive desktop. You can wirelessly connect to any monitor, keyboard, and mouse. The unique user interface also gives you the ability to organize tiles, open multiple browsers and edit and create documents.

Wireless entertainment of all your Android content

Dell Cast also simply connects to an HDMI-enabled display to wirelessly mirror your tablet content to a larger screen. Watch movies, listen to music and share photos with the Dell Cast via Android cast screen in display settings.
