

Philips

OPS accessory

- HDBaseT receiver
- OPS insert compatible

CRD25/00

Future-Proof Connectivity

With HDBaseT OPS receiver

Making use of leading technology standards, the HDBaseT OPS receiver integrated within the OPS insert provides you with a powerful combination and a unique all-in-one solution

Benefits

[Innovative solutions for any signage application](#)

- Optional OPS Insert to create an all-in-one solution
- OPS receiver module enables reception of HDBaseT signals

PHILIPS

Features

OPS Insert

Turn your display into an all-in-one digital signage solution and create a display network that is connected, intelligent and secure. Open Pluggable Specification (OPS) is an industry-standard slot into which you can add an OPS-standardised media player. This cable-free solution gives you the ability to install, use or maintain your hardware whenever you need to.

HDBaseT signals

HDBaseT is a connectivity standard over a single CAT5e/6 cable, converging uncompressed full-HD digital video and audio signals.
