EcoTank L555

This 4-in-1 Wi-Fi printer with a high-capacity integrated ink tank system includes two years' worth of ink[1], delivering amazing value.

The Epson L555 is a 4-in-1 printer, ideal for homes and small offices looking to cut their printing costs. With printing, scanning, copying and faxing functions, this model also features ADF and Wi-Fi connectivity. With integrated high-capacity ink tanks, there are no cartridges to replace; you simply top up the tanks with Epson ink bottles and keep on printing.

Say goodbye to cartridges with Epson EcoTank
The L555 comes with around two years' worth of ink[1] in the box, that's enough ink to print up to a massive 4,000 pages in black and 6,500 pages in colour[2], without needing to change an ink cartridge. It offers an ultra-low-cost per page for both black and colour printing.

Easy to use
The purpose-built ink tank is fully integrated into the printer, so you can enjoy reliable colour printing without mess or hassle. The L555 is also quick to set-up and use: simply fill with the ink supplied, turn the printer on and prime the ink system. Now the L555 is ready to print. Additional ink can be bought in convenient high-volume bottles that have a drip-free nozzle and resealable cap for easy storage.
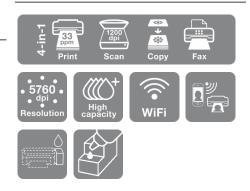

Stay connected
Wi-Fi connectivity makes it easy to position and use your printer around the home or office. Epson iPrint[3] allows you to print wirelessly from smartphones and tablets anywhere. The L555's small footprint easily complements any environment, and its 30-page Automatic Document Feeder (ADF) makes it easy and straightforward to scan, copy or fax documents.

Reliable
With Micro Piezo printhead technology and Epson genuine ink, the L555 delivers Epson quality, plus the 12 month (or 30,000 page) warranty and service support provides peace of mind and help if you need it.
