10 电子电器产品有害物质限制使用标识要求：图中之数字为产品之环保使用期限。仅指电子电器产品中含有的有害物质不致发生外泄或突变从而对环境造成污染或对人身、财产造成严重损害的期限。

有害物质名称及含量说明标示：

部件名称	有害物质					
	铅 (Pb)	汞 (Hg)	镉 (Cd)	六价铬 (Cr(VI))	多溴联苯 (PBB)	多溴二苯醚 (PBDE)
印刷电路板及 其电子组件	×	○	○	○	○	○
外壳	○	○	○	○	○	○
外部信号连接 头及线材	×	○	○	○	○	○

本表格依据SJ/T 11364的规定编制。

- ：表示该有害物质在该部件所有均质材料中的含量均在GB/T 26572规定的限量要求以下。
- ×：表示该有害物质至少在该部件的某一均质材料中的含量超出GB/T 26572规定的限量要求，然该部件仍符合欧盟指令2011/65/EU的规范。

备注：此产品所标示之环保使用期限，系指在一般正常使用状况下。

Australia statement notice

From 1 January 2012 updated warranties apply to all ASUS products, consistent with the Australian Consumer Law. For the latest product warranty details please visit <http://support.asus.com>. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure or compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

If you require assistance please call ASUS Customer Service 1300 2787 88 or visit us at <http://support.asus.com>

WARNING :

This product contains chemicals known to the State of California to cause cancer, birth defects or other reproductive harm. Wash hands after handling.

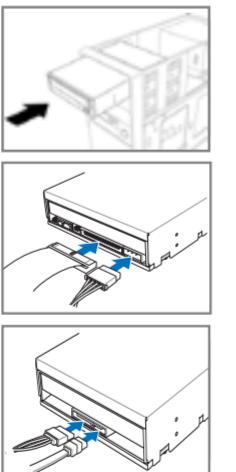

B급 기기

이 기기는 가정용(B급) 전자적합기기로서 주로 가정에서 사용하는 것을 목적으로 하며, 모든 지역에서 사용할 수 있습니다.

Hardware installation

Turn off your computer and any peripheral device connected to it before installing the optical drive. For avoiding damage to the optical drive due to static electricity, use a grounded wrist strap or touch a safety grounded object or a metal object, such as a power case, before installing the optical drive.

- Remove the computer cover.
- For IDE optical drives, configure the drive jumper to set the device to either Master, Slave, or Cable Select mode before installing it into the chassis.
- For optical drives, there is no necessity for jumper settings.
- Insert the optical drive into an available 5.25-inch bay as shown in Figure 1.
- For IDE optical drives, connect a 4-pin power supply cable to the DC input connector of the optical drive (as shown in Figure 2). Next, connect an IDE cable to the IDE connector at the back of the optical drive, matching the colored stripe on the cable with Pin 1 on the IDE connector (as shown in Figure 2). Connect the other end of the IDE cable to the IDE connector on the motherboard.
- For SATA optical drives, connect a 15-pin power supply cable to the DC input connector of the optical drive (as shown in Figure 3). Then, connect a SATA cable to the SATA connector at the back of the optical drive (as shown in Figure 3). Connect the other end of the SATA cable to the SATA connector on the motherboard.
- Slide the optical drive into the bay and secure it with four screws.
- Replace the computer cover.
- Turn on your computer.

Français

Installation matérielle

Éteignez votre ordinateur et tous les périphériques reliés à ce dernier avant d'installer le lecteur optique. Afin d'éviter que l'électricité statique démarre le disque optique, utilisez un bracelet antistatique, touchez un objet métallique à la terre ou un objet en métal tel que le bloc d'alimentation avant d'installer le disque optique.

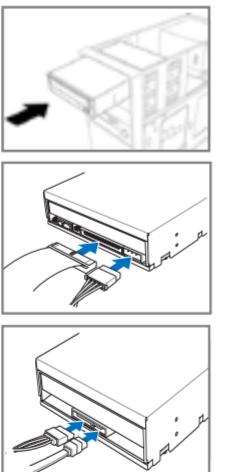

- Retirez le châssis de l'ordinateur.
- Pour les disques optiques IDE, réglez le jumper pour configurer l'appareil en mode Maître, Esclave, ou Câble Sélect avant de l'installer dans le châssis.
- Pour les disques optiques SATA, le réglage du jumper n'est pas nécessaire.
- Insérez le disque optique dans une baie 5.25" disponible (comme illustré dans l'image 1).
- Pour les disques optiques IDE, branchez le câble d'alimentation au DC input connector de l'optical drive (comme illustré dans Figure 2). Next, connect an IDE cable to the IDE connector at the back of the optical drive, matching the colored stripe on the cable with Pin 1 on the IDE connector (as shown in Figure 2). Connect the other end of the IDE cable to the IDE connector on the motherboard.
- Pour les disques optiques SATA, branchez le câble d'alimentation au DC input connector of the optical drive (as shown in Figure 3). Then, connect a SATA cable to the SATA connector at the back of the optical drive (as shown in Figure 3). Connect the other end of the SATA cable to the SATA connector on the motherboard.
- Glissez le disque optique dans la baie et sécurisez-le à l'aide de quatre vis.
- Remplacez le châssis de l'ordinateur.
- Allumez votre ordinateur.

Deutsch

Hardware-Installation

Schalten Sie den Computer und alle angeschlossenen Peripheriegeräte aus, bevor Sie das optische Laufwerk installieren. Berühren Sie die Metallrückwand oder Seite des Computers, um Schäden durch statische Elektrizität zu verhindern.

- Entfernen Sie die Gehäusebedeckung.
- Stellen Sie bei optischen IDE-Laufwerken den Laufwerksjumper auf Master, Slave, oder Cable Select-Modus ein, bevor Sie das Laufwerk installieren.
- Bei optischen SATA-Laufwerken ist keine Jumperinstellung notwendig.
- Stecken Sie das Laufwerk in einer 5,25"-Schacht (siehe Abb. 1).
- Bei optischen IDE-Laufwerken: Schließen Sie ein 4-pol. Netzteil an den Netzzanschluss des optischen Laufwerks an (siehe Abb. 2). Verbinden Sie dann einen IDE-Kabel mit dem IDE-Anschluss an der Laufwerksrückwand und richten Sie die Streifen des Kabels auf Pin 1 des IDE-Anschlusses aus (siehe Abb. 2). Verbinden Sie das andere Ende des IDE-Kabels mit dem IDE-Anschluss am Motherboard.
- Bei optischen SATA-Laufwerken: Schließen Sie ein 15-pol. Netzteil an den Netzzanschluss des optischen Laufwerks an (siehe Abb. 3). Verbinden Sie ein SATA-Kabel mit dem IDE-Anschluss an der Laufwerksrückwand und richten Sie die Streifen des Kabels auf Pin 1 des SATA-Anschlusses aus (siehe Abb. 3). Verbinden Sie das andere Ende des SATA-Kabels mit dem SATA-Anschluss am Motherboard.
- Stecken Sie das optische Laufwerk in den Schacht und sichern Sie es mit den vier Schrauben.
- Bringen Sie die Gehäusebedeckung wieder an.
- Schalten Sie den Computer ein.

Notices

Federal Communications Commission Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference, and
 - This device must accept any interference received including interference that may cause undesired operation.
- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with manufacturer's instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING! The use of shielded cables for connection of the monitor to the graphics card is required to assure compliance with FCC regulations. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Canadian Department of Communications Statement

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the Radio Interference Regulations of the Canadian Department of Communications.

This class B digital apparatus complies with Canadian ICES-003.

Takeback Services

ASUS recycling and takeback programs come from our commitment to the highest standards for protecting our environment. We believe in providing solutions for our customers to be able to responsibly recycle our products, batteries and other components as well as the packaging materials. Please go to <http://csr.asus.com/english/Takeback.htm> for detail recycling information in different region.

Safety information

Observe the following precautions before installing and using the drive.

Installation notices

- Do not place this device in an unstable position, or on vibrating surfaces.
- Do not place this device under direct sunlight, or in humid or damp places.
- Do not use or place this device near magnetic fields, televisions, or radios to avoid electronic interference that affects drive performance.
- Do not attempt to disassemble or repair the drive. Opening the drive may result to exposure to laser radiation.

WARNING! Do not remove the front panel and/or tray door to avoid the fly-out of the rotating disc.

Using the device

- Do not place damaged discs inside the device. A damaged disc may break while in use and damage the device.
- Use of any controls, adjustments, or procedures other than those specified in this manual may result to hazardous radiation exposure.
- Do not attempt to disassemble the drive.
- Do not move the device from a cold to a warm or hot environment. Drastic change in temperature is harmful to the device.
- Before moving or uninstalling the drive, remove any disc in it.
- Prevent liquids or any metal from getting into the device, if this situation occurs, contact your retailer for help.
- Do not use any evaporating solvents to clean the device. If you accidentally sprayed any solvent on the device, use a clean cloth to wipe it. You may also use a neutral cleaner to dilute the solvent to easily wipe it from the device.
- Do not turn off the computer while the device is in reading or writing mode.
- Do not place discs into the device immediately if they came from a cold environment, specially during cold seasons. Wait until the discs have reached room temperature.
