

Mini Hi-Fi System

- 240 W
- 3-disc changer

FWM387/05

Obsessed with sound

For unlimited music enjoyment, this system offers a 3-CD changer and allows you to enjoy your favourite MP3/WMA music collections directly from your portable USB device. Plus, Max Sound and Dynamic Bass Boost ensure great sound.

Benefits

Enrich your sound experience

- 240 W RMS total output power
- MAX Sound for instant power boost
- Play MP3/WMA-CD, CD and CD-RW

Continuous enjoyment of your favourite music

- 3-disc changer for convenient multi-disc playback
- Auto-stop stereo tape deck
- MP3 Link for portable music playback

- Enjoy MP3/WMA music directly from your portable USB drives

Personalised sound settings

- 3-step Dynamic Bass Boost for deep bass experience
- Digital Sound Control for optimised music style settings
- Karaoke for endless singing entertainment at home

PHILIPS

Features

3-disc changer

With a three-disc changer for music playback, you can choose between three different CDs inside the device at any one time. This convenient feature allows you to savour a variety of music while saving you precious time spent changing CDs frequently.

MAX Sound

MAX Sound technology produces an instant boost in the bass, maximising volume performance and instantly creating the most impressive listening experience with just the touch of a button. Its sophisticated electronic circuitry calibrates existing sound and volume settings, instantly boosting the bass and volume to maximum levels, without distortion. The end result is a noticeable amplification of both sound spectrum and volume and a powerful audio boost that will add mileage to any music.

3-step Dynamic Bass Boost

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from level one to level three – at the touch of a button! You can customise the bass level that fits your style. Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.
