Extended retailer text

Whether you don't want your beloved iPhone 6 to bend, scratch or fall out of your hands, the Endura Grip & Protection case saves the day!

Maximum protection
The meshed metal design of the case does not only give the Endura a tough look, but will also make sure that your iPhone does not bend or gets scratched. Besides, the rubber edges make sure that your phone will lay in your hand firmly and prevents it from slipping away.
With a slightly popping-out lens, the iPhone camera gets easily scratched. Although the Endura case has a slim design, it is thick enough to fully integrate your back camera in the protective design, therefore preventing it from getting damaged.

Slim design
Meshed metal, rubber coating and a slim design; the Endura case not only gives you full protection but also makes a great eye catcher. Your iPhone keeps feeling thin, the Apple logo will still be visible and all buttons and ports will be kept accessible.
And at last, it also contains ventilation holes for optimal signal reception and cooling.
