## Highlights

### Even light distribution

With the customised optics in Philips EyeCare desk lamps, you get light that is diffused and evenly distributed across your workspace. This reduces uneven lighting and dazzle, which normally leads to tired eyes and general eye fatigue.

### Reduces glare and eye strain

The combination of customised optics and high-quality cool white LED light in this Philips EyeCare desk lamp helps to reduce glare and eye strain. Comfortable and with no visible flickering, it helps to support optimal eye comfort.

### Cool daylight

Various findings have pointed out that a cool daylight colour temperature of 5500K and up to 1000 lux promotes concentration by maintaining energy levels and alertness with natural light levels.

### Advanced dimming with memory

With its advanced dimming adjustment and memory function, this Philips EyeCare desk lamp allows you to find the light intensity that suits you best and keeps it at that setting. Handy and convenient.

### Extended reach

The ergonomic and flexible arm of this Philips EyeCare desk lamp is designed to offer extended reach for maximum reading comfort. Positioning is effortless, so you won't have to bend or move awkwardly around your desk to get your lighting focused correctly on your workspace.

### 5-year warranty on LED system

On top of the standard 2-year warranty for this lamp, Philips offers a 5-year warranty on the LED system, meaning the LED module and the driver in this lamp.
