Digital touch control with Motorized Combs

HAIRCLIPPER Series 9000 gives you total precision and control of your haircut. With Digital Swipe, Motorized Combs, Memory function and a high performance cutting element, it's the only clipper that gives consistently the expected results.

Ultimate precision and control

- Digital Swipe interface
- Easy to select and lock-in 400 length settings: 0,5 to 42mm
- Adjustable hair combs for the best clipping results

Performance

- Self-sharpening titanium blades for extra durability
- Motorized Combs for easy length selection
- Auto Turbo to boost cutting speed
- Double-sharpened cutting element cuts two times faster*
- 2-year guarantee

Easy to use

- Remembers 3 cutting length settings per comb
- 120 minutes of cordless use after a 1-hour charge
- Easy charging and storage

Highlights

Digital Swipe interface

The Digital Swipe interface gives you precise feedback on the selected length. Use the touch screen to easily swipe through more than 400 length settings. Quickly browse through lengths or slowly go through each small step of 0.1 mm.

400 lock-in length settings

Use the Digital Swipe to precisely select and lock-in the length you want, with more than 400 length settings from 1 to 42mm, and precisely 0,1mm between each length. Or you can use it without the comb for a close 0.5mm trim.

3 adjustable hair combs

The clipper comes with 3 adjustable hair combs: from 1 to 7mm, 7 to 24mm and 24 to 42mm. Just attach one of the combs for more

than 400 lock-in length settings, with 0,1mm between each length. Or you can use the clipper without the comb for a close 0.5mm trim.

Titanium blades

The advanced Titanium blades are harder than steel for ultimate durability. In addition, the blades are self-sharpening to ensure long-lasting performance and accurate cutting, time after time.

Motorized Combs

The motor powered length setting system easily selects and locks in the preferred length. The motor powers the comb and allows selecting between lengths with a precision of up to 0.1mm. This innovative technology gives you the security of clipping all the time at the desired length and achieving consistent results time after time.

DualCut Technology

Power through any hair type with our advanced DualCut Technology, which combines a double-sharpened cutting element with low-friction engineering. The innovative cutting element is designed to cut hair twice as fast as regular Philips clippers, with the added confidence of a robust steel guard for ultimate durability.

Memory Function

This smart clipper remembers your last cutting length and can save 3 others for each comb attachment you put on. Select your preferred length, hold the memory button pressed and the clipper will immediately memorise your setting. You can do this for three different lengths.

Specifications

Cutting system

Cutter width: 41mm
