

#### Micro music system

- Bluetooth®
- USB port for charging

BTM2360/12

## Bring power to your tunes

Listen to all the digital music on your Smartphone via Bluetooth, or play MP3-CD and CD-R/W on one Philips Micro system. Bass Reflex speakers deliver dramatic bass and a 70-W maximum output provides powerful sound.

#### Benefits

##### Enjoy your music from multiple sources

- Stream music wirelessly via Bluetooth™ from your smartphone
- USB Direct for easy MP3 music playback
- Play MP3-CD, CD and CD-R/RW
- Audio-in for portable music playback

##### Enrich your sound experience

- 70 W RMS maximum output power

- Bass Reflex Speaker System delivers a powerful, deeper bass
- Digital Sound Control for optimised music style settings

##### Easy to use

- Digital tuning with preset stations for extra convenience
- Motorised CD loader for convenient access

# PHILIPS

Features

Stream music via Bluetooth™

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can easily enjoy your favourite music, sound from video or game wirelessly on this speaker.

USB Direct for easy MP3 music

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more digital music via the built-in USB Direct.

Audio-in

The Audio-in connectivity allows direct playback of Audio-in content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the Audio in is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Playback media	CD CD-R/RW MP3-CD USB flash drive
USB Direct playback modes	fast reverse/fast forward play/pause previous/next

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimise the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by causing the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a completely new dimension of deep bass.
