

wireless portable speaker

- Bluetooth®
- Rechargeable battery
- 2 W

BT50L/00

Big sound that fits in a fist

Live life with music streamed wirelessly from one compact, round and easy-to-carry speaker. Bright colours help you pick one that fits your style and a built-in rechargeable battery keeps music pumping wherever and whenever you take it.

Benefits

Impressive sound

- Anti-clipping function for loud, distortion-free music
- Advanced audio performance with a compact design

Simplicity in use

- Wireless music streaming via Bluetooth

- Audio-in for easy connection to almost any electronic device

Designed for grab and go

- Built-in rechargeable battery for music playback anywhere

Features

Wireless music streaming

or even laptops. So you can enjoy your favourite music and sound from videos or games wirelessly.

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets

PHILIPS

Anti-clipping function

Anti-Clipping lets you play music louder and keeps the quality high, even when the battery is low. It accepts a range of input signals from 300 mV to 1000 mV and keeps your speakers safe from damage by distortion. This built-in function monitors the musical signal as it goes through the amplifier and keeps peaks within the amplifier's range, preventing the audio distortion caused by clipping

without affecting loudness. A portable speaker's ability to reproduce musical peaks decreases along with battery power, but anti-clipping reduces peaks caused by low battery, keeping music distortion-free.

Audio-in
