

wireless portable speaker

- Bluetooth®
- Rechargeable battery
- 2W

BT50G/00

Big sound that fits in a fist

Live life with music streamed wirelessly from one compact, round and easy to carry speaker. Bright colors help you pick one that fits your style and a built-in rechargeable battery keeps music pumping wherever and whenever you take it.

Benefits

Impressive sound

- Anti-clipping function for loud, distortion free music
- Advanced audio performance with a compact design

Simplicity in use

- Wireless music streaming via Bluetooth

- Audio-in for easy connection to almost any electronic device

Designed for grab and go

- Built-in rechargeable battery for music playback anywhere

Features

Wireless music streaming

or even laptops. So you can enjoy your favorite music, sound from video or game wireless on this speaker easily.

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets

PHILIPS

Anti-clipping function

Anti-Clipping lets you play music louder and keeps it high quality, even when the battery is low. It accepts a range of input signals, from 300mV to 1000mV and keeps your speakers safe from damage by distortion. This built-in function monitors the musical signal as it goes through the amplifier and keeps peaks within the amplifier's range, preventing the audio distortion caused by clipping

without affecting loudness. A portable speaker's ability to reproduce musical peaks decreases along with battery power, yet anti-clipping reduces peaks caused by low battery, keeping music distortion free.

Audio-in

Specifications
