# Highlights

## Dual Precision blades

DualPrecision blades comfortably shave both long hairs and short stubble. 1. Slots cut long hairs. 2. Holes cut stubble

## Super Lift and Cut

The dual blade system built into the Philips electric shaver lifts hairs to cut comfortably below skin level for a closer shave.

## GyroFlex 2D

GyroFlex 2D contour-following system of the shaver adjusts easily to the curves of your face, minimizing pressure and irritation for a close shave.

## Aquatec Wet and Dry

The Aquatec wet & dry seal of the electric shaver lets you choose how you prefer to shave. You can get a comfortable dry shave or a refreshing wet shave using a shaving gel or foam for extra skin comfort.

## Fully washable shaver

Simply pop the heads open, and rinse thoroughly under the tap.

## SkinGlide

The low-friction SkinGlide shaving surface of the electric shaver slides smoothly along your skin for a close easy shave.

## Cordless use - 50 mins

An energy-efficient, powerful lithium-ion battery gives you more shaves per charge. Charge it for an hour and you'll have up to 50 minutes of shaving time. Charge it for 3 minutes and you'll have enough power for one shave.

## 2 level battery indicator

The multi-level LED display shows when the battery is low, when you need a new head and when the travel lock is on. Travel lock prevents the product from turning on by accident. Press any button for 3 seconds to activate the travel lock, so the product doesn't get turned on accidentally. A red lock symbol shows when the travel lock is on.

## Click-on beard styler

Change up your look with the skin-friendly beard styler attachment. Choose from 5 length settings to create anything from a perfect stubble look to a short, neatly trimmed beard. Rounded tips and combs prevent skin irritation.
