

i-tec Thunderbolt 2 Docking Station

i-tec Thunderbolt 2 Docking Station, 2x Thunderbolt 2, 1x HDMI, 4K Ultra HD 4096x2160, Gigabit Ethernet, 3x USB 3.0 Port (of which 1x USB 3.0 Charging Port with BC 1.2 also for tablets), Audio output, Microphone input + 1m Thunderbolt Cable

PRODUCT DESCRIPTION

i-tec THUNDERBOLT 2 Docking Station will allow you easy and extremely powerful connection of all accessories to your MacBook. It offers two Thunderbolt 2 ports with the transmission speed of 20 Gb/s. One will be used for connecting your Mac and the other one can be used for connection of other Thunderbolt devices such as external drives or monitors with the max. resolution 3840x2160@30Hz.

Using the 4K HDMI interface you can connect any monitor with a resolution up to 4096x2160@24Hz. When you connect HDMI and Thunderbolt monitor simultaneously, the max. resolution is 3840x2160@30Hz. Then you have three USB 3.0 ports that can be used for connection of your USB devices as well as for charging of phones, tablets, or other mobile devices. To enable high-power USB charging of Apple tablets, simply download and install the free utility.

Wi-fi connection is really comfortable, but honestly speaking, if you want power without compromise, nothing can help you better than Gigabit Ethernet port, which always does not have to be a part of some modern notebooks. i-tec THUNDERBOLT 2 Docking station will help you with this and you can enjoy high speed internet access without any interruption. A separated microphone input and earphone output will allow conference calls as well as wonderful experience from movies or games.

The docking station features a compact and elegant metallic design which was developed in accordance with the ultrabook line. It can be used also as a notebook or tablet pad providing better circulation of air under these pieces of equipment.

This universal docking station will significantly increase the comfort of using your MacBook. It will allow connection of your favourite pieces of hardware such as a keyboard, mouse, external disk, printer, an audio system, internet modem, another monitor, etc. by a single Thunderbolt 2 cable (One-Touch-System). This way you will avoid perpetual connecting and disconnecting of these pieces of hardware whenever you carry your notebook or tablet with you. Another advantage is better organization of your desktop and removal of the unorganized clutter of cables.

In case of problems with the installation, technical difficulties or incorrect function of the equipment, check first for the possible solution in the FAQ tab.

PRODUCT FEATURES

- 1x Thunderbolt™ 2 port for connecting to the host device
- 1x Thunderbolt™ 2
 - Data
 - Video port
- Video Ports:
 - 1x HDMI
- Supported Resolutions:
 - 1 monitor - 1x HDMI → up to 4K/30Hz
 - 1 monitor - 1x Thunderbolt™ 2 → up to 4K/30Hz
 - 2 monitors - 1x HDMI + 1x Thunderbolt™ 2 → up to 2x 4K/30Hz
- 2x USB 3.0 port
- 1x USB 3.0 port with fast charge support (BC 1.2)
- 1x Ethernet GLAN RJ-45 port (Realtek RTL8153)
- 1x 3,5mm Audio output, 1x 3,5mm Microphone input
- 1x Power input (DC 12V/5A)
- Cable Thunderbolt™ 2 (100cm)
- OS: Windows 10, macOS X (Sierra or later) with the latest updates
- Product dimensions: 195 x 77 x 28mm
- Product weight: 316g
- Package dimensions: 307 x 127 x 83mm
- Package weight: 1050g

SYSTEM REQUIREMENTS

Hardware requirements:

- Device with an available Thunderbolt™ 2 port

Operating system:

- Windows 10, macOS X (Sierra or later) with the latest updates
