Highlights

Enjoy smooth skin every day

Philips Lumea applies gentle pulses of light to the hair root. This results in the hair shedding naturally and hair regrowth is inhibited. Repeating this treatment regularly will keep your skin smooth everyday.

Effortlessly effective

Our clinical studies have shown significant hair reduction in as little as four bi-weekly treatments resulting with smooth hair free skin. To maintain these results, simply repeat the treatment when needed. Time between treatments may vary based on your individual hair regrowth.

IPL technology

Philips Lumea uses an innovative light-based technology called IPL (Intense Pulsed Light), derived from the technology used in professional beauty salons. Philips has adapted this technology for safe and effective use in the comfort of your own home. Philips worked closely with leading dermatologists to develop our breakthrough hair removal system. For more than 10 years we carried out extensive consumer research with more than 2000 volunteers.

Big body attachment, 4cm²

Big body attachment enables fast treatment on large areas like legs.

Philips Lumea works effectively on (naturally) dark blonde, brown and black hairs. As with other light-based treatments, Philips Lumea is NOT effective on red, light-blonde or white/grey hair. Philips Lumea is also NOT suitable for dark skin.

Application areas

Use with confidence to remove hair on body areas below the neckline: legs, armpits, bikini area, arms and belly.

5 light energy settings

Philips Lumea has five adjustable light energy settings to ensure gentle but effective treatment. Used correctly, Philips Lumea's IPL treatment is safe and gentle to use even on sensitive skin and sensitive body areas.

No replacement parts needed

Philips Lumea is a complete solution that comes ready to work straight out of the box. More importantly, it does not require any replacement lamps or gels.

Gift item: Lady shaver

Prepare for your IPL treatment with EXTRA shaver. With Philips compact lady shaver you can shave your whole body in a quick and easy way. You can use it in the shower or in dry conditions, at your own convenience. Compact and battery driven.
