- Speakerphone allows you to talk hands-free
- Save up to 25 favourite contacts in your phonebook
- Caller ID - so you always know who is calling\*
- Privacy protection with silence mode and mute mode

# PHILIPS

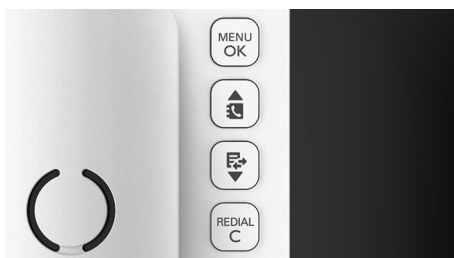

# Highlights

## 2.75" white-on-black display

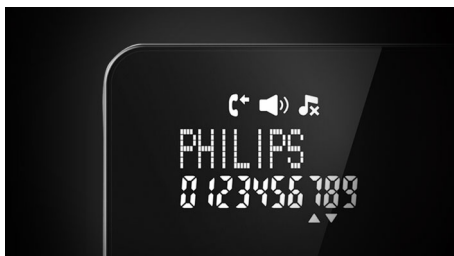

High-contrast 7-cm (2.75") white-on-black reverse display

## 25-name phonebook

Always have the phone numbers of your loved ones available: Save up to 25 names in your phonebook.

## Caller ID\*

Sometimes it's good to know who's calling before you answer. And our Caller ID lets you keep track of who's on the other end of the line.

## Cleverly hinged display

Cleverly hinged display offers you a clear view of the phone display from any angle – whether the phone is placed on a tabletop or mounted on a wall. Large, high-contrast white-on-black reverse LCD and large font characters ensure added comfort and effortless reading of the display.

## Comfortable handset

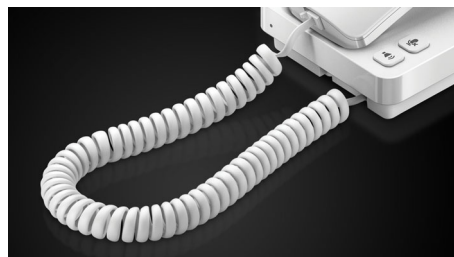

Comfortable, perfectly weighted handset for longer calls

## Event LED

The red Event LED that's nicely integrated in the display will blink to alert you whenever there's a missed call. With the smart CallLog feature, you can easily check which call you missed with just the touch of a button.

## Radiation-free

Corded phones do not emit any harmful radiation as the connection between the base and the handset is made through a coiled cord.

## Secure connection at any time

Corded phones do not rely on the power supply from the electrical socket since the power required for their operation is directly sourced from the landline cable. This makes corded phones one of the most reliable communication choices, especially during power cuts. With the coiled cord connecting the comfortable handset to the base, you will always be able to find your handset. Enjoy long, hassle- and worry-free communication – any time!

## Silence mode and mute mode

Privacy protection with silence mode and mute mode

## Speakerphone

Hands-free mode uses a built-in loudspeaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

## Tabletop or wall-mounted use

Can be placed on a tabletop or mounted on a wall
