Black:

2952_SPSTION-MICRO-32GB-BLK

2953_SPSTION-MICRO-64GB-BLK

*Extra battery is measured by comparing the mAh capacity of the spacestation battery to that of an iPhone 5 battery. The amount of extra battery you will receive depends on a variety of factors that are different for every user. **600mAh reserved for memory function. †64GB model. 1GB = 1,000,000,000 Bytes. 1MB = 1,000,000 Bytes. Approximations: Results will vary based on file size. Photos estimated from a 2MB average per JPEG image. Video estimated from H.264 compressed video at a rate of 5Mb/sec. Songs estimated from MP3 compressed audio at 128kb/sec at 3 minutes, 30 seconds per song. Files in formats incompatible with device operating system can be stored but not opened.
