

InLine® 4x1 HDMI 4K UltraHD Fast Switch with Audio

* Preise inkl. gesetzlicher MwSt. zzgl. Versandkosten

Marke: INL

Bestell-Nr.: 65017

It is known that the most benefit of the HDMI is to integrate the audio and video signals together. This integration makes all of us enjoy the high quality of the audio and video effect. Awfully the bad effect of the HDTV audio deprives the basic right of the enthusiasts. Fortunately, we develop this new product eventually, not only to meet the ideal image of the HDTV but also to meet the need of the enthusiasts' requirement for audio. Because it separates the audio signal from the HDMI interface, then transmit to the amplifier by Stereo, Toslink or COAX (RCA). This HDMI Switch has many features that enable it to perform in a superior manner. Among those features you will find:

- Supports digital audio output simultaneously : Stereo, Toslink and COAX
- Supports highest video resolution up to 4K2K@30Hz.
- Supports 340MHz/3.4Gbps per channel (10.2Gbps all channel) bandwidth.
- Supports 12bit per channel (36bit all channel) deep color.
- Supports HDCP.
- Optional MHL to HDMI cable for MHL input support.
- Supports uncompressed audio such as LPCM.
- Supports compressed audio such as DTS Digital.
- Support 3D all format, including 1080p@23.98/24Hz, 720p@59.94/60Hz/50Hz, bandwidth up to 340MHz.
- to switch the channel, please use the "Select" button on the unit or remote control
