HX6972/03

Superior cleaning between teeth

Toothbrush for gentle cleaning of teeth and gums

Combining our sonic technology and 5 brushing modes, the FlexCare+ electric toothbrush is your solution for improved oral health. Plus you can improve your gum health after just 2 weeks of use.

Benefits

Proven to improve oral health

- Improves gum health in only two weeks
- Naturally whiter teeth with patented sonic technology
- Clinically proven safe and gentle

Offers a customised brushing experience

- Five different modes for a better cleaning experience
- Easy-start programme to acclimate to the Sonicare experience

Guides you to follow dental recommendations

- Two-minute timer helps ensure recommended brushing time
- Quadpacer interval timer encourages thorough brushing

Provides a superior clean

- Designed to reach deeper and go further
- Sonicare dynamic sonic action drives fluid between teeth
- Angled brush head neck for better reach to back teeth

PHILIPS

Features

Reach deeper and go further

Philips Sonicare InterCare toothbrush head features extra-long, high-density bristles to target hidden plaque caught deep between teeth and other hard-to-clean areas.

Improves gum health

This Philips Sonicare electric toothbrush provides optimal cleaning along the gumline for improved gum health in just two weeks. Up to 6 times better plaque removal than a manual toothbrush at the gumline.

Five different cleaning modes

The five modes include a Clean mode for an outstanding clean in two minutes; a Sensitive mode for gentle yet thorough cleaning of the gums; a Refresh mode for those quick one-minute touch-ups; a Massage mode to stimulate the gum; and a Gum Care mode that helps improve gum health.

Naturally whiter teeth

The dynamic sonic action of this toothbrush and the direct broader contact with each tooth, has been proven to remove everyday stains, to help keep teeth naturally whiter.

Safe and gentle

Your Philips Sonicare Electric Toothbrush is safe to use on: braces (brush heads wear out sooner when used on braces), dental restorations (fillings, crowns, veneers) and periodontal pockets.

Sonic technology

The Philips Sonicare electric toothbrush's unique dynamic action gently and effectively reaches deep between teeth and along the gum line.

Angled brush head neck

The uniquely angled neck of this toothbrush head makes it easier to reach back teeth, removing plaque in those hard-to-reach areas.

Smartimer

2-minute timer on this Philips Sonicare electric toothbrush helps ensure dental professional recommended brushing time

Quadpacer

30 seconds interval timer indicates when you have completed each quadrant of your mouth and signals for you to move on, resulting in more consistent cleaning throughout your mouth

Easy-start programme

Gently increases power over first 14 uses to ease you into the Philips Sonicare electric toothbrush experience
