Your all-in-one wireless portable speaker

Enjoy listening to music from the Philips all-in-one portable speaker. Play your favourite tunes via Bluetooth, USB, MicroSD card and audio-in connectivity. The speaker is compact, comes with a rechargeable battery and is available in a variety of colours.

Benefits

Enjoy music from multiple sources

- Easy playback from USB/MicroSD Card
- Built-in Digital FM radio
- Wireless music streaming via Bluetooth
- Audio-in for easy portable music playback

- Stereo headphone jack for better personal music enjoyment
- Built-in rechargeable battery

Rich and clear sound

- 3 W RMS total output power

Easy to use

- Clear and bright LED display

Features

USB/MicroSD card

Simply load the USB or MicroSD card with the desired content, plug it into your player - and never have to worry about running out of entertainment choices again.

sound quality. The technology allows the receiver to lock on to the strongest signal it can find. With digital stations there are no frequencies to remember and sets are tuned by station name, so there is no returning on the move.

Digital FM radio

Digital Radio is, on top of FM analogue transmission, a new way of broadcasting radio via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in clear, crackle-free

PHILIPS

3 W RMS

This system has a 3W RMS total output power. RMS refers to Root Mean Square, which is a typical measurement of audio power, or rather, the

electrical power transferred from an audio amplifier to a loudspeaker, which is measured in watts. The amount of electrical power delivered to the loudspeaker and its sensitivity determines the sound power that is generated. The higher the wattage, the better the sound power emitted by the speaker.
