

OccuSwitch

LRM1020/00 OS MOV DET Corridor

The OccuSwitch is a movement detector with a built-in switch. It will switch the lights off in a room or area when it is vacated and thus save up to 30% on electricity. The OccuSwitch can switch any load of up to 6 A and control an area of between 20 and 25 m². A detachable mains connector enables easy installation and mounting of the OccuSwitch in the ceiling; a separate Wieland cable is available for easy, fast and trouble-free installation.
