Highlights

Naturally removes calcium

The ion-exchange technology removes calcium from the water before entering your coffee machine, thus preventing its formation. If the filter is replaced timely at machine request, you can enjoy up to 625 cups with each filter*

Better taste, for longer

AquaClean will help preserve coffee taste for longer and prevent your machine from clogging thanks to innovating features such as the ion-exchange technology, the patented water flow and the micro porous filter.

Clear water optimally purified

The AquaClean ensures only pure and filtered water flows into your Full Automatic coffee machine and it reduces the need of descaling.

With AquaClean you can enjoy up to 5000* cups without descaling by replacing the filter 8 times.

Filter blocks any impurities

Ridding your brew of any small particles makes a huge difference to your in cup quality. The micro-porous filter prevents impurities from contaminating the water, so you can guarantee every cup you make will be fresh, clean and delicious.

Easily activate the filter

Such an enduring feature could not be quicker to install. Just plug your AquaClean filter in the water tank of your Saeco super-automatic espresso machine, activate it via the user interface, and you are ready to enjoy up to 5000 pure coffee cups without descaling*.

Descaling alarm

By activating AquaClean filter you automatically de-activate the descaling alarm. Endless, hassle-free coffee of the finest quality is yours to enjoy - and it's not until after 8 filter replacements that the machine will reactivate the descaling process alarm. Machines equipped with AquaClean have a sticker on the water tank.
