

MPN: CABSHENUTS

Set of Cage Nuts 20 x M6

The CABSHENUTS Set of Cage Nuts provides a secure and reliable mounting solution for your rack-mounted equipment. This set includes 20 M6 cage nuts, ideal for installing servers, network devices, and other hardware into standard server racks and cabinets. Made with durable materials, these cage nuts ensure a strong and stable connection, preventing equipment from shifting or becoming dislodged. MicroConnect delivers premium quality accessories like these, ensuring your installations are professional and long-lasting. With over 20 years of experience, we understand the importance of reliable connectivity and secure mounting solutions. These cage nuts offer a simple yet essential element for creating a stable and organized server environment, reflecting MicroConnect's commitment to providing quality solutions at a fair price.
