

In ear headphones with mic

- 8.6mm drivers/semi-closed back
- In-ear

[SHE9105BS/27](#)

Enjoy high performance precision sound

with solid metal housing

The Philips SHE9105 headphones boasts premium drivers and precision-crafted metal housing for detailed yet pure sound. Oval sound tubes & choice of 3 ear-tips ensure comfort and fit, while in-line mic lets you switch from music to calls.

Benefits

Enjoy quality sound

- Sturdy aluminum housing prevents vibration for sound clarity
- Fine-tuned neodymium drivers for high frequency clarity

Ultimate wearing comfort

- Curved housing and oval sound tubes for ergonomic comfort
- Silicon caps in choice of three sizes for customized fit

Always ready to go

- Anti-tangle slider keeps your cables together neatly
- Durable Flexi-grip for strong headphone-to-cable connection
- Featuring in-line remote with mic for music and calls

PHILIPS

Features

Aluminum housing

The headphone’s housing is crafted from sturdy aluminum, which prevents vibration for the purest sound performance. In addition, it protects the earphones from the wear and tear of everyday use.

Anti-tangle slider

The smart anti-tangle slider helps you easily keep the two earpiece cables neatly together, simply by gliding it up. No more hassles with tangles or knots!

Durable Flexi-grip connection

This soft yet durable and flexible connector between the earphone and cable helps protect against potential damage from repeated bending.

Finely tuned neodymium driver

Neodymium is the ideal material that produces strong magnetic field for greater sensitivity in a voice coil, better bass response and higher overall sound quality. It features re-engineered 8.6mm neodymium drivers that are responsive to high frequencies and ensure pure sound clarity.

In-line remote with mic

The built-in microphone lets you easily switch from music listening to taking phone calls - easily, so you'll always stay connected

Oval sound tubes

Your in-ear headphones are precisely designed to fit any ear. Its ergonomic oval sound tube and curved architecture ensure an optimized, secure and comfortable fit – always.

Silicon caps in three sizes

Your in-ear headphones come with a choice of 3 ear caps – from small to large – so you can select the perfect fit for your ears.
