

Sonic electric toothbrush - Dispense

- 3 modes, 3 intensities
- 2 brush heads
- With pressure sensor

HX9182/34

Their techniques may vary, but their results won't

Our first brush with Adaptive Cleaning Technology

At the core of our Adaptive Cleaning Technology are two components - the innovative AdaptiveClean brush head and intuitive pressure sensor. Both features help your patients brush smarter, not harder.

Benefits

Provides a superior clean

- AdaptiveClean brush head
- Customizable brushing experiences
- Patented Sonicare toothbrush technology

Guides you to follow dental recommendations

- Intuitive pressure sensor

Offers a customized brushing experience

- New Deep Clean: Effortlessly tackle trouble spots

Designed around you

- InterCare brush head

Proven to improve oral health

- Smarttimer
- Quadpacer

PHILIPS

Features

AdaptiveClean brush head

Soft, flexible sides made of rubber allow the bristles to conform to the unique shape of patients' teeth and gums to provide up to 4x more surface contact*. The brush head's flexibility helps the bristles gently track along the gumline and absorb excessive brushing pressure. Enhanced sweeping motion delivers a unique in-mouth feel and superior cleaning along the gumline and in hard-to-reach areas*. Proven to remove 10x more plaque than a manual toothbrush in hard-to-reach areas*.

Intuitive pressure sensor

If too much pressure is applied, the handle gently pulsates to tell patients they are brushing too hard to guide proper technique. In a study of U.S. patients, 7 out of 10 aggressive brushers tested reduced their brushing pressure when using the pressure sensor.

Deep Clean mode

Our all-new Deep Clean mode delivers an exceptional clean in hard-to-reach places. The unique motion of the brush head in this mode plus an extended three-minute brushing time makes it the ideal choice when you want to pay extra attention to trouble spots.

Custom brushing experiences

Three intensity settings and three cleaning modes provide optimal comfort and performance for a more personalized brushing experience, encouraging

better compliance. The three-minute Deep Clean mode delivers an exceptional clean in hard-to-reach places. It's the perfect mode for patients who need to pay extra attention to trouble spots.

InterCare brush head

Extra-long, high-density bristles reach deeper between teeth to help remove significantly more plaque* interproximally. Ideal for patients with bleeding gums or increased risk of gum inflammation.

Smarttimer

Two-minute timer helps ensure dental professional recommended brushing time.

Quadpacer

Thirty-second interval timer encourages thorough brushing of each quadrant of the mouth.

Sonic technology

Drives fluid between the teeth and along the gumline for a powerful yet gentle clean.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.
