

Soundbar speaker

- 3.1 CH wireless subwoofer
- Bluetooth® and NFC
- HDMI ARC
- 200 W

HTL3160B/12

Unmatched voice clarity from 3.1 Ch

with wireless subwoofer

Upgrade your TV with enhanced voice clarity and virtual surround sound for a better cinematic experience, plus wireless music streaming with one-touch NFC pairing.

Benefits

Connect and enjoy all your entertainment

- One-touch with NFC-enabled smartphones for Bluetooth pairing
- Wireless music streaming via Bluetooth
- EasyLink to control all HDMI CEC devices via a single remote
- Enjoy MP3 music directly from your portable USB devices
- Audio-in to enjoy music from iPod/iPhone/MP3 player
- Works with TVs, BD/DVD players, gaming consoles, MP3 players

Designed for simplicity

- Touch panel for intuitive playback and volume control

- Low-rise profile for the perfect fit in front of your TV

Richer sound for watching TV and movies

- Dedicated centre-channel speaker for superior voice clarity
- Virtual Surround Sound for a realistic movie experience
- Dolby Digital and Pro Logic II surround sound
- Wireless subwoofer adds thrill to the action

PHILIPS

Features

Centre-channel speaker

A centre-channel speaker dedicated especially to voice frequencies anchor speech to the centre of the screen. This offers improved voice positioning and clarity, increasing immersion in movies.

Virtual Surround Sound

Philips Virtual Surround Sound produces rich and immersive surround sound from a less than five-speaker system. Highly advanced spatial algorithms faithfully replicate the sonic characteristics that occur in an ideal 5.1-channel environment. Any high quality stereo source is transformed into true-to-life, multi-channel surround sound. No need to purchase extra speakers, wires or speaker stands to appreciate room-filling sound.

Dolby Digital and Pro Logic II

A built-in Dolby Digital decoder eliminates the need for an external decoder by processing all six channels of audio information to provide a surround sound experience and an astoundingly natural sense of ambience and dynamic realism. Dolby Pro Logic II provides five channels of surround processing from any stereo source.

One-touch with NFC

Pair Bluetooth® devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC-enabled smartphone or tablet on the NFC area of a soundstage to turn the soundstage on, start Bluetooth® pairing, and begin streaming music.

EasyLink

EasyLink lets you control multiple devices like DVD players, Blu-ray players, soundbar speakers, Home theatre systems and TVs etc. with one remote. It uses HDMI CEC industry-standard protocol to share functionality between devices through the HDMI cable. With one touch of a button, you can operate all your connected HDMI CEC-enabled equipment simultaneously. Functions like standby and play can now be carried out with absolute ease.

USB playback

Simply plug in your device to the USB port on your Philips Soundbar speaker. Your digital music will be played directly from the device. Now you can share your favourite moments with family and friends.
