

CD Soundmachine

- CD, MP3-CD, USB, FM
- Tape
- Remote Control
- 12 W

AZ790/12

Powerful portable sound

with 12 W RMS total output power

Enjoy digital music from your portable device in powerful sound on the Philips CD Soundmachine — any time, anywhere. Thanks to USB Direct, Bass Reflex Speakers and 12 W RMS total output power.

Benefits

Enjoy your music from multiple sources

- USB Direct for MP3/WMA music playback
- Play MP3/WMA-CD, CD and CD-RW
- Autostop cassette deck
- Digital tuning with preset stations for extra convenience
- Audio-in for easy portable music playback

Easy to use

- Handy remote control for extra convenience

- Stereo headphone jack for better personal music enjoyment
- Sleep timer helps you to drop off to your favourite music

Powerful sound you can hear and feel

- Bass Reflex Speaker System delivers a powerful, deeper bass
- Dynamic Bass Boost for deep and dramatic sound
- Digital Sound Control for optimised music style settings

PHILIPS

Features

USB Direct

With the USB Direct mode, simply plug in your USB device to the USB port on your Philips device and your digital music will be played directly from the Philips device.

Play MP3/WMA-CD, CD and CD-RW

Audio compression technology allows large digital music files to be reduced up to 10 times in size without radically degrading their audio quality. MP3 or WMA are two of the compression formats that let you enjoy a world of digital music on your Philips player. Download MP3 or WMA songs from authorised music sites on the Internet or create your own MP3 or WMA music files by ripping your audio CDs and transferring them onto your player.

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimise the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by causing the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a completely new dimension of deep bass.

Handy remote control

With a handy remote control for greater convenience at your fingertips, all you have to do is sit back and relax.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Audio playback

Playback media	CD CD-R CD-RW MP3-CD	Disc playback modes	WMA-CD fast forward/reverse next/previous track search repeat/shuffle/programme
----------------	-------------------------------	---------------------	--

Stereo headphone jack

Connect your own headphones with this Philips device for a more personal listening experience whenever you want it. You can enjoy your favourite music in great sound without disturbing others by connecting your headphones to this device.

Dynamic Bass Boost

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Digital tuning with presets

Simply tune into the station that you want to preset, then press and hold the preset button to memorise the frequency. With preset radio stations that can be stored, you can quickly access your favourite radio station without having to manually tune the frequencies each time.

Cassette deck technology	mechanical
Number of decks	1
