

Soundbar speaker

- 3.1 CH wireless subwoofer
- Bluetooth® and NFC
- HDMI ARC
- 200 W

HTL3160B/05

## Unmatched voice clarity from 3.1 ch of sound

with wireless subwoofer

Upgrade your TV with enhanced voice clarity and virtual surround sound for a better cinematic experience, plus wireless music streaming with one-touch NFC pairing.

### Benefits

#### Connect and enjoy all your entertainment

- One-touch with NFC-enabled smartphones for Bluetooth pairing
- Wireless music streaming via Bluetooth
- Works with TVs, BD/DVD players, gaming consoles, MP3 players
- Audio-in to enjoy music from iPod/iPhone/MP3 player
- EasyLink to control all HDMI CEC devices via a single remote
- Enjoy MP3 music directly from your portable USB devices

#### Designed for simplicity

- Low-rise profile for the perfect fit in front of your TV

- Touch panel for intuitive playback and volume control

#### Richer sound for watching TV and movies

- Dedicated centre-channel speaker for superior voice clarity
- Dolby Digital and Pro Logic II surround sound
- Virtual Surround Sound for a realistic movie experience
- Wireless subwoofer adds thrill to the action

# PHILIPS

## Features

### Dolby Digital and Pro Logic II

A built-in Dolby Digital decoder eliminates the need for an external decoder by processing all six channels of audio information to provide a surround sound experience and an astoundingly natural sense of ambience and dynamic realism. Dolby Pro Logic II provides five channels of surround processing from any stereo source.

### Virtual Surround Sound

Philips Virtual Surround Sound produces rich and immersive surround sound from a less than five-speaker system. Highly advanced spatial algorithms faithfully replicate the sonic characteristics that occur in an ideal 5.1-channel environment. Any high quality stereo source is transformed into true-to-life, multi-channel surround sound. No need to purchase extra speakers, wires or speaker stands to appreciate room-filling sound.

### One-touch with NFC

Pair Bluetooth® devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC-enabled smartphone or tablet

on the NFC area of a soundstage to turn the soundstage on, start Bluetooth® pairing, and begin streaming music.

### Bluetooth

Bluetooth is a short-range wireless communication technology that is both stable and energy efficient. The technology allows for easy wireless connection to other Bluetooth devices, so you can play your favourite music from any smartphone, tablet or laptop, including the iPod or iPhone, with a Bluetooth-enabled speaker.

### Audio in

Audio in allows you to easily play your music directly from your iPod/iPhone/iPad, MP3 player or laptop via a simple connection to your Philips home cinema system. Simply connect your audio device to the Audio in jack to enjoy your music with the superior sound quality of the Philips home cinema system.

### USB playback

Simply plug in your device to the USB port on your Philips Soundbar speaker. Your digital music will be played directly from the device. Now you can share your favourite moments with family and friends.
