

Soundbar speaker

- 2.1 CH wireless subwoofer
- Bluetooth® and NFC
- HDMI ARC
- 120 W

HTL3110B/79

Powerful sound for any TV

with wireless subwoofer

Unleash the full sound potential of all your media devices and enjoy the freedom of placement provided by the wireless subwoofer. This soundbar works with your TV, CD players, gaming consoles, USB and Bluetooth devices.

Benefits

Connect and enjoy all your entertainment

- One-touch with NFC-enabled smartphones for Bluetooth pairing
- Stream music wirelessly via Bluetooth™ from your smartphone
- EasyLink to control all HDMI CEC devices via a single remote
- Enjoy MP3/WMA music directly from your portable USB devices
- Works with TVs, BD/DVD players, gaming consoles, MP3 players

Designed for simplicity

- Low-rise profile for the perfect fit in front of your TV
- Flexible placement on the wall, tabletop or stand

Richer sound for watching TV and movies

- Virtual Surround Sound for a realistic movie experience
- Dolby Digital for ultimate movie experience
- Twin tweeters for optimum clarity performance
- Wireless subwoofer adds thrill to the action
- External subwoofer adds thrill to the action

PHILIPS

Features

Virtual Surround Sound

Philips Virtual Surround Sound produces rich and immersive surround sound from a less than five-speaker system. Highly advanced spatial algorithms faithfully replicate the sonic characteristics that occur in an ideal 5.1-channel environment. Any high quality stereo source is transformed into true-to-life, multi-channel surround sound. No need to purchase extra speakers, wires or speaker stands to appreciate room-filling sound.

Dolby Digital

Because Dolby Digital standards, the world's leading digital multi-channel audio standards, make use of the way the human ear naturally processes sound, you experience superb quality surround sound audio with realistic spatial cues.

One-touch with NFC

Pair Bluetooth® devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC-enabled smartphone or tablet

on the NFC area of a soundstage to turn the soundstage on, start Bluetooth® pairing, and begin streaming music.

Stream music via Bluetooth™

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can easily enjoy your favourite music, sound from video or game wirelessly on this speaker.

USB

Low-rise profile
