Micro music system

• 20 W

MCM2450/12

Hi-Fi stereo sound that fits your home

Connect your music with USB Direct and make it sound the way you like it with Digital Sound Control, or use the audio-in to connect any of your music devices to reinvigorate your music. An all-in-one slim, compact and wall mountable design.

Benefits

Enrich your sound experience
• Bass Reflex Speaker System delivers a powerful, deeper bass
• Digital Sound Control for optimised music style settings
• 20W RMS maximum output power

Enjoy your music from multiple sources
• Play MP3-CD, CD and CD-R/RW
• USB Direct for easy MP3 music playback

• Audio-in for portable music playback

Design that blends into your interior
• Compact design fits any space, any lifestyle
• Wall-mountable option for flexible placement

PHILIPS

Features

USB Direct for easy MP3 music

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more digital music via the built-in USB Direct.

Audio-in

The Audio-in connectivity allows direct playback of Audio-in content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the Audio in is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box

system in the addition of a bass pipe that is acoustically aligned to the woofer to optimise the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by causing the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a completely new dimension of deep bass.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set Balance, Clear, Powerful, Warm and Bright controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

Wall-mountable

The perfect combination of a slim and versatile design, your Philips audio system is cleverly designed to blend into your living space. The base of the audio system is a stand so the system can sit securely and nicely on any shelf or cabinet. When wall mounted you have all the same flexibility of the freestanding stand.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.
