

InLine® 180° Patch Cable S/FTP PiMF Cat.6A 500MHz halogen free Copper 10m

* Preise inkl. gesetzlicher MwSt. zzgl. Versandkosten

Marke: INL

Bestell-Nr.: 76800X

The InLine® 180° patch cables offer the best transmission quality and maximum flexibility! The plug of the bare copper black patch cables can be tilted freely around 180° and is optimally suited in tight situations. The halogen-free Cat.6A cables are available in 1 to 10 meters and has S/FTP (PiMF) Shielding up to 500MHz with a high-quality finish. Please note: Because of the wide of this RJ45 plug, the usability for network devices with densely aligned RJ-45 jacks is limited.
